

# Project Log

Name: \_\_\_\_\_

Project: Recycled/Found Object Sculpture

Class: \_\_\_\_\_ Due Date: \_\_\_\_\_

**Directions:** This is to help you keep track of the project requirements, steps, and any other information needed to successfully complete the project! This form should be **finished completely** and turned in with your final product. Any questions, please ask! :)

---

## Big Question or Idea:

- What do I value?
- How can I create art from “nothing?”
- What is garbage?
- Why do we waste things as humans?

## Medium/Media Needed:

- Found Objects/Recyclables
- Tape
- Glue
- Paper Mache (Optional)
- Cardboard

## Requirements:

- Use of a found object/recyclable for 80% of the sculpture
- Can stand on its own
- Cohesive sculpture
- Finalized design

## Learning Goal(s):

- Develop a style
  - Use a unique material
  - Experiment/try something new
  - Sculpting Techniques
- 

## Project Process:

Steps/Process	Skill Being Practiced
1. Sketch Ideas	Thumbnail Sketches & Brainstorming
2. Pick found object/recyclable	Finding materials
3. Make foundation	Sculpting Techniques
4. Add found objects/recyclables	Using a unique material & building
5. Solidify structure	Sculpting techniques & building
6. Finalize sculpture	Finishing a work

**Reflection:**

<p>What are three things you learned from this project:</p> <p>1.</p> <p>2.</p> <p>3.</p>
<p>What are two things you still need to practice:</p> <p>1.</p> <p>2.</p>
<p>What is one thing you want me to know:</p> <p>1.</p>

Did you like this project?

- Yes                       No
